

Add proper logo, it is attached

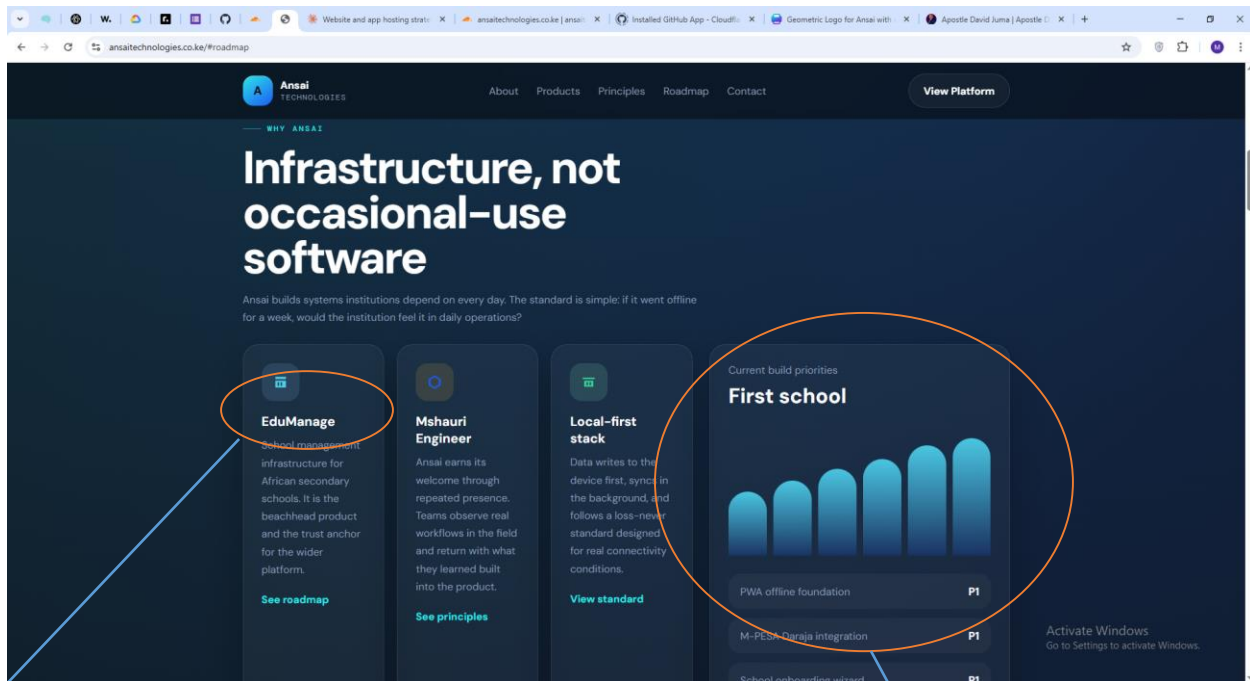

Say view Infrastructure

I want these elements to be dynamic, they slide up to show, Nairobi, Nakuru, Bungoma, the country slides up to show Kenya and Africa, month and year change when the appropriate time comes

Say explore infrastructure

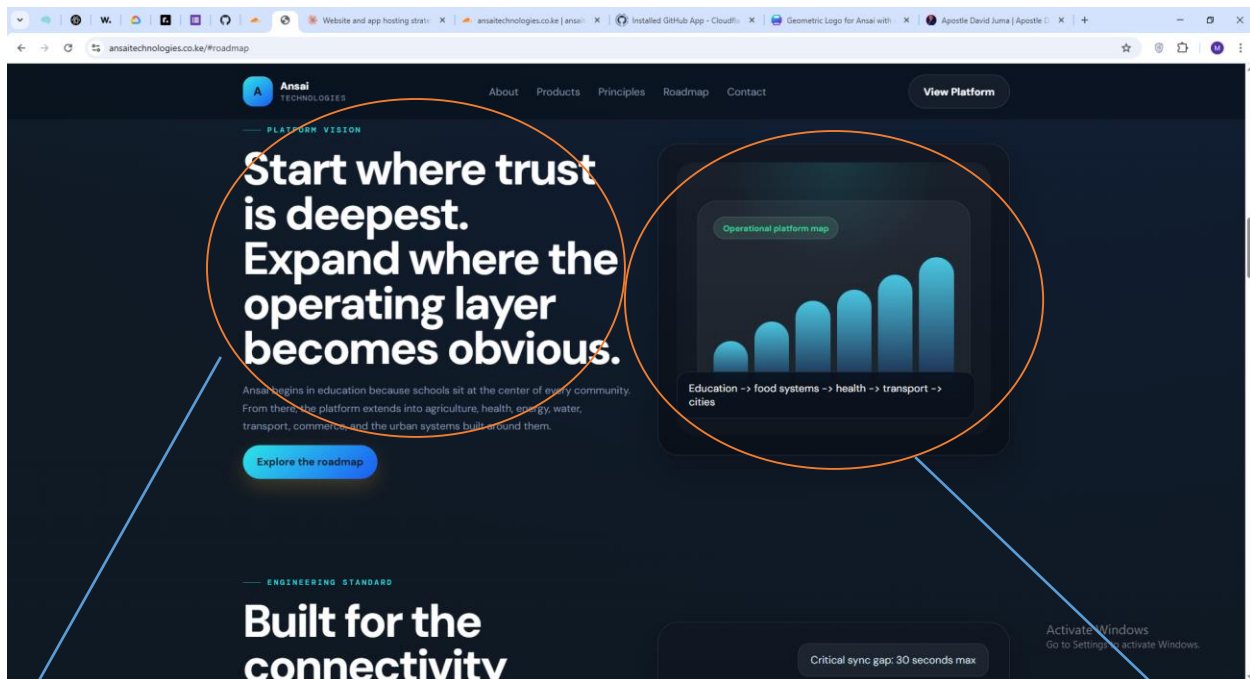

Add animations that make these to slide in, or flow in

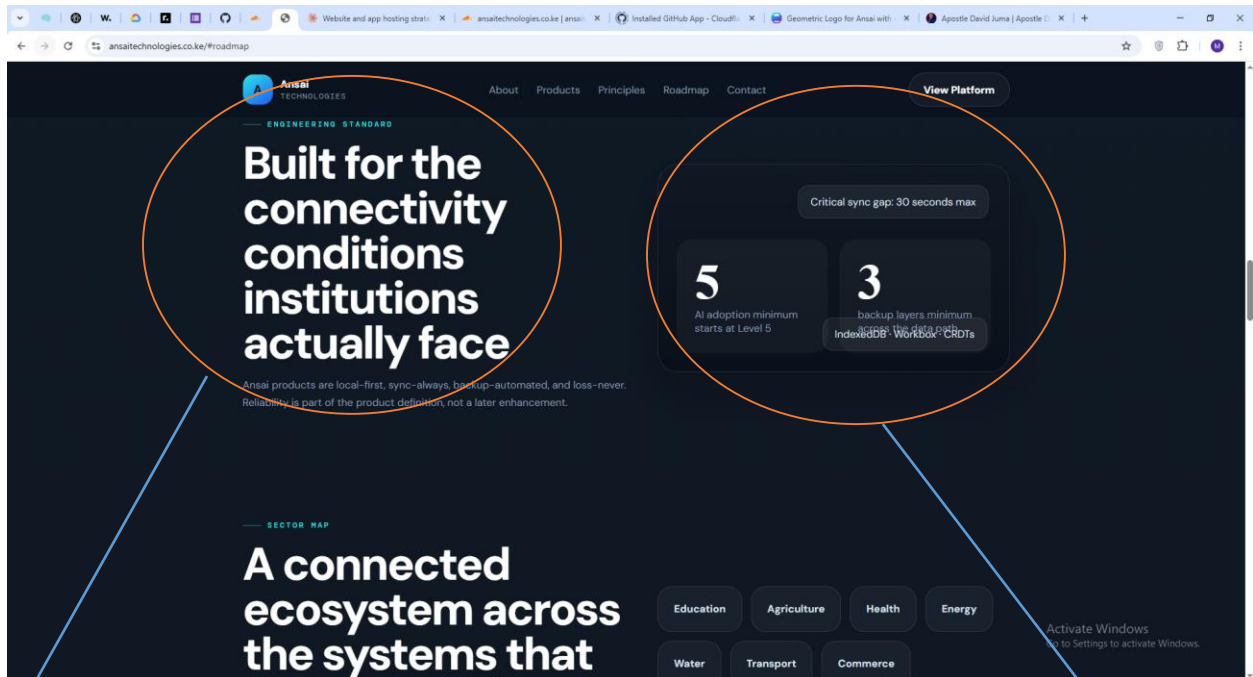

The description should not be of a product but rather of a method or culture or technique, reference our docs

I don't think it should describe our internal endeavors rather something for the public to see

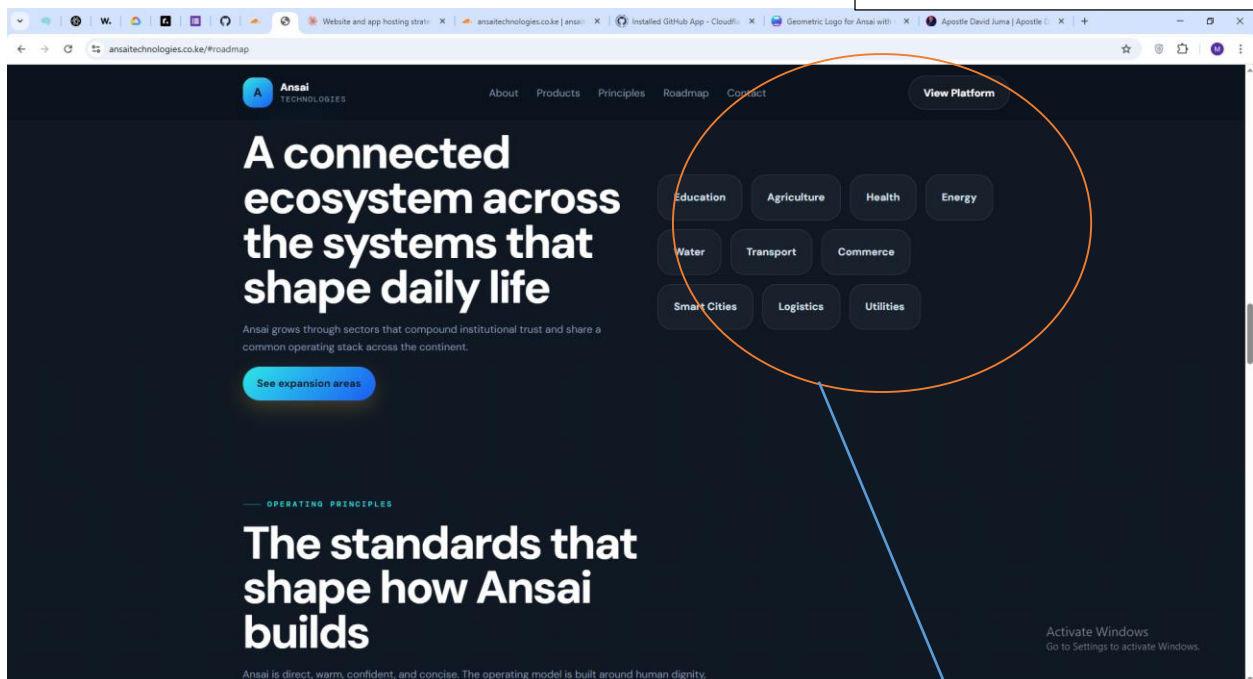

Find better wording

I don't think it should describe our internal endeavors rather something for the public to see

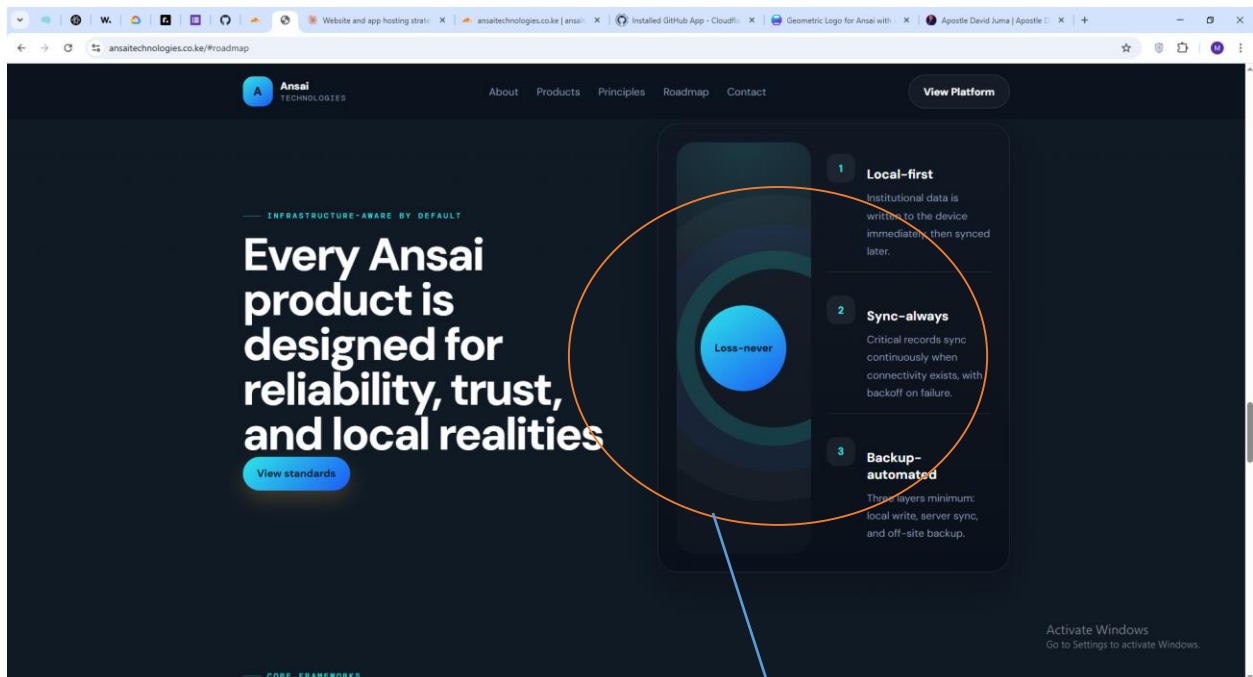

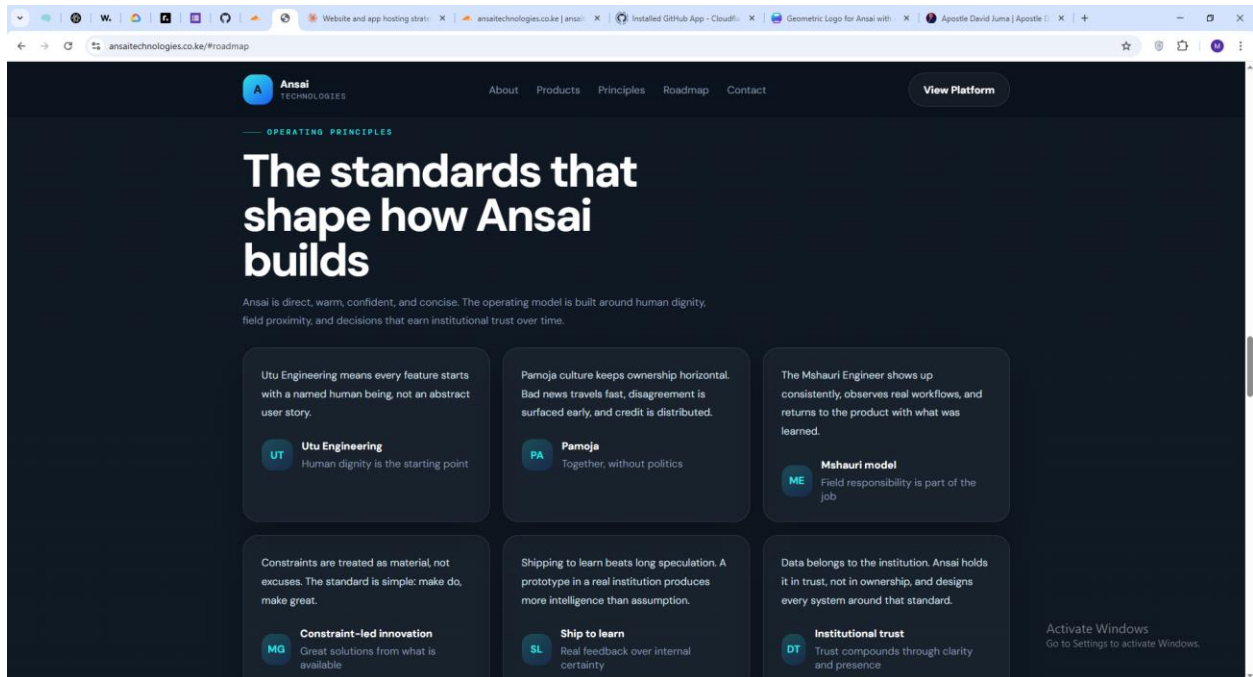

Better wording

Misalignments and overlaps add animations

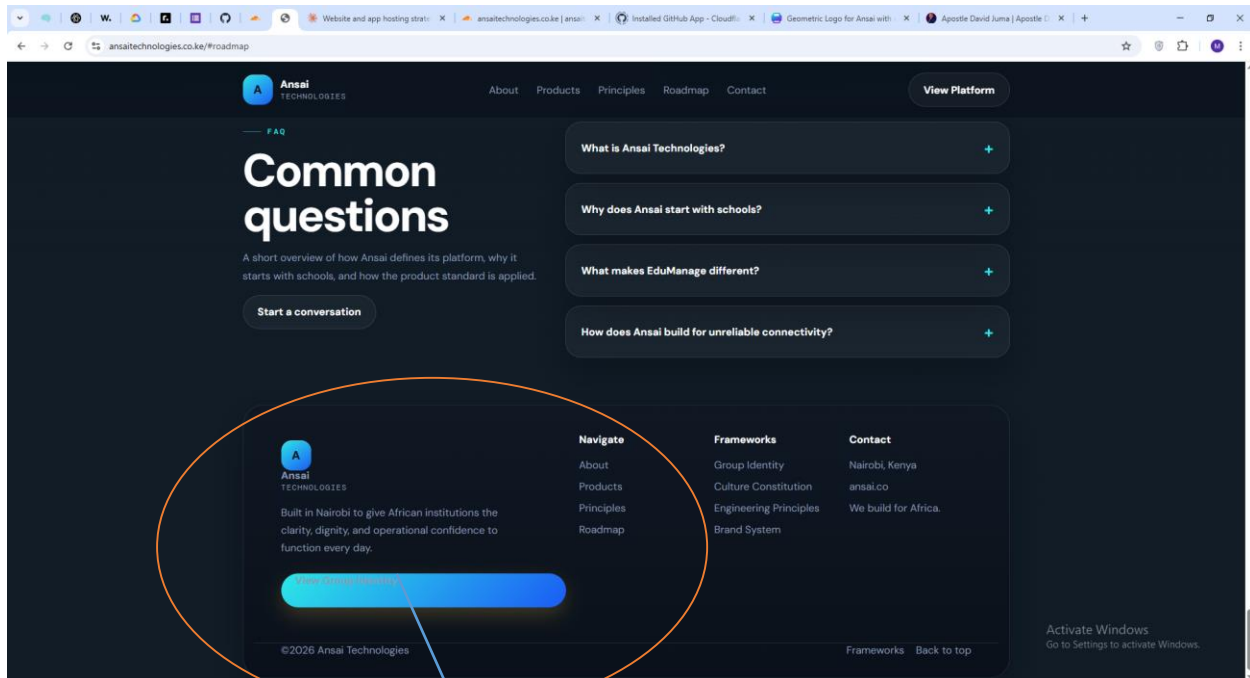

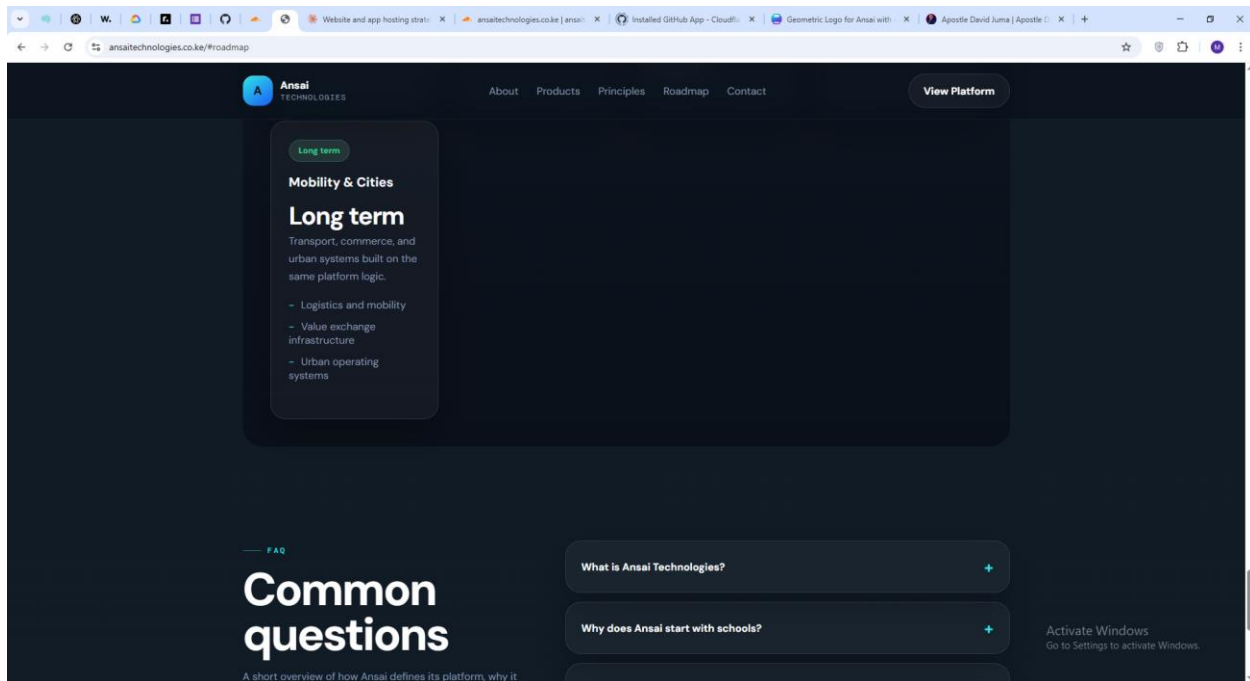

Arrange and make appealing don't overdo simple but classic, add animations

Add animations

There seems to be some misalignments
